

# Quick Start – LogPlot 7, Single User

---

## Installing LogPlot 7

1. Visit [www.rockware.com](http://www.rockware.com)
2. Click on the **Downloads** menu item, along the top of the page, and select **Product Updates**.
3. Click on the **LogPlot** link.
4. Scroll down to the **LogPlot7** heading and click the **Download LogPlot7** button.
5. **Save** the installation file to your computer.
6. When the download is complete, **run** the installer file, ("logplot7\_install.exe") to start the installation. Follow the recommended installation settings.

---

## Licensing LogPlot 7

When installation is complete, the licensing program will start automatically. First, here are some terms you'll need to understand:

- **Registration Number:** A set of numbers/letters assigned to you when you purchase a license of LogPlot. It is emailed to you after purchase, or is affixed to your book and CD, and is used to verify your ownership of the license. This number does not change.
  - **Licensee Name:** Your company's name, or your name if you are not associated with a company or organization.
  - **Installation Number:** A set of numbers and characters that the program itself creates the first time it is started up. It can be found on the LogPlot Unlock screen. This number is different for each computer on which LogPlot is installed, and for each user on the computer.
  - **Unlocking Code:** A set of numbers that you obtain from RockWare to transform the software from Trial mode to Full Use mode. RockWare computes the **Unlocking Code** based on your **Registration Number** and the **Installation Number**.
1. Read the license agreement and, if you accept the terms listed, click in the "**I accept the terms of this agreement**" check-box.
  2. Next, specify who you are: Along the left side of the Licensing Options window, choose **End User**. (To license the Single User version, you must be the End User.) If you are *not* the end user (you're installing for someone else) you'll need to **Cancel** the licensing process at this time and have the actual end user log into the computer.
  3. Specify the type of license you purchased: click **Single User** in the lower half of the screen.
  4. Click the **Continue** button at the bottom of the screen.
  5. The next "Welcome" screen will show "LogPlot 7," the version number, the number of trial days left, etc. Click the **Unlock Trial Version** button.
  6. Right-click/copy the **Installation Number** you see in the Unlock window. You'll need this in a minute.
  7. Visit our **registration form**: <https://www.rockware.com/support/register-and-unlock-software/>
  8. You will need to supply (1) the **Registration Number**, (2) the **Installation Number**, and (3) some contact information. Submit the form. We will reply within one business day with the unlocking code.
  9. Unlock the program: When you receive your unlocking code from RockWare, start up LogPlot again and click the **Unlock Trial Version** button on the startup screen. Fill in the Unlock window prompts – **Licensee Name**, **Registration Number**, and **Unlocking Code** - as described above.
  10. Click the **Continue** button. You will be notified if the licensing was successful. The LogPlot program window will be displayed, as well as the Help messages.

---

## Getting Help

- Level 1: Run through the **Tutorial** lessons in the online Help window which is displayed upon program start and via the Help / Tutorial menu.
- Level 2: Select the Help/Contents option to access the Help messages for LogPlot. They are also available by clicking the Help button in most program Options windows.
- Level 3: Access our **web site**: [www.rockware.com](http://www.rockware.com) and click on the Support / LogPlot items.
- Level 4: Visit / join the online **support forum** where users post questions and answers: [www.rockware.com/forum/index.php](http://www.rockware.com/forum/index.php).
- Level 5: Refer to the **manual** which can be shipped or downloaded from [www.rockware.com](http://www.rockware.com): Support/LogPlot/Downloads/Documentation.
- Level 6: Contact our **technical support staff** at 303-278-3534, or email us at [tech@rockware.com](mailto:tech@rockware.com).
