

RW/02/03/22/JPR – New: A new option titled “Sort By” has been added to the 3D Lithology Legend sub-menu. If the **Sort By** option is set to **Name**, the legend will be sorted by the lithology **Keyword**. If the **Sort By** option is set to **G-Value**, the legend will be sorted by the **G-Value**.

**Note: The sorting within the Lithology Type Table (controlled by clicking on the column titles) has no effect upon the sorting within the legend.**
